Re: Offer to assist Examiner

Sir/Madam:

The above identified application may include a lengthy specification, however, Applicant has no intent to delay nor hinder the examination. Please kindly contact Applicant if Applicant's assistance contributes to expedite the examination of the above identified application. Applicant intends to have the above identified application patented as soon as possible for the following reason:

Due to limited budget, since Applicant is an individual, Applicant does not have sufficient fund to file continuations and/or divisionals to cover all inventions described in the above identified application and the other pending applications filed by Applicant. Once patent is issued and Applicant succeeds in collecting profit therefrom, such as by licensing, Applicant seeks to file, by utilizing the

profit as application fees, continuations and/or divisionals of the above identified application and the other pending applications filed by Applicant, if possible.

Applicant intends to have the above identified application patented as soon as possible. Applicant believes that the best method to expedite the examination is to assist Examiner to minimize his/her burden to understand the invention described in the specification. Please kindly contact Applicant if Applicant's assistance contributes to expedite the examination of the above identified application. Applicant is delighted to assist Examiner.

Best Regards,

A handwritten signature in black ink, appearing to read 'Iwao Fujisaki', with a stylized flourish at the end.

Iwao Fujisaki
